Mahatma Gandhi

My inspiration...!

Gandhi ji also known as the father of the Nation is truly an inspiration for every Indian he believed in the essential unity of man, the underlying unity of all religions and in non-violence He devoted himself to the service of the poor, the distressed and the oppressed millions everywhere

His dominating passion was truth That truth led him to proclaim without ceasing that good ends can never be attained by evil methods and thus he become the beloved of all those who suffered from social and political evils because of his moral value & good deeds, wherever he sat down became a temple of where he trod was hallowed ground. He truly is an inspiration.

Friendship

Friendship is much older than all religions it enlisted even when there was nothing called communal divisions it is more necessary than guns and swords. A friend is greater than god, always glittering like gold as pure as a pearl good and kind a friend is the only one who never turns his back even in our problems they are always there with a solution

Life without a friend becomes very hard it would be like a mobile without a sim card If a friend isn't there happiness seems to be very rare or just like a vehicle without a gear. True friendship helps you in each and every way. Friendship is very pure and true it is as fresh as the morning dew. friendship is that which will never desert you. A true friends is possessed only by a few.

Tanya Bhatani

A Little Girl needs Daddy

A little girls needs daddy
For many-many things
Like hobbling her high off the ground
Where the sunlight sings
Like being the deep music
That tells her all is right
When she awakens frantie with
The terrors of the night
Like being the great mountain
That rises in her heart
And shown her how she might get home
When all else of all apart
Like giving her the love
The is her sea and air
So diving deep or soaring high
She will always find him there

Taya Kari

Aryabhatta

Aryabhatta was born on 476, AD in Patliputra in Magadha is now modern Patna in Bihar, there are several tales of claim for his origins. Indian scientists have shaped the course of mathematics and astronomy for the world to marvel upon. Many scientists in USA today are Indians and more than 40% of scientists of NASA and the Silicon Valley are Indians.

Indians have helped the world build intercontinental missiles, satellites, the space shuttle, stealth technology, space exploration and deep impact navigation. One of the very early pioneers in astronomy and mathematics was Aryabhatta.

Whatever his origins, it cannot be disputed that he lived in Patliputra where he wrote his famous thesis called the "Aryabhatta Siddhanta" more commonly known as the Aryabhatta. This is the only work to have survived to the present day. It contains mathematical and astronomical hypotheses that have been discovered to be quite accurate in contemporary mathematics.

For example, he wrote that if 4 is added to 100 and then multiplied by 8, then divided by 20,000, the answer will be equal to the circumference of a circle of diameter twenty thousand. This calculates to 3,1416, close to the actual value of Pi {3.14159}. But his greatest discovery has to be zero, known as Shunya in his times. His other works include

theorems on trigonometry, arithmetic, algebra, quadratic equations and the sine table.

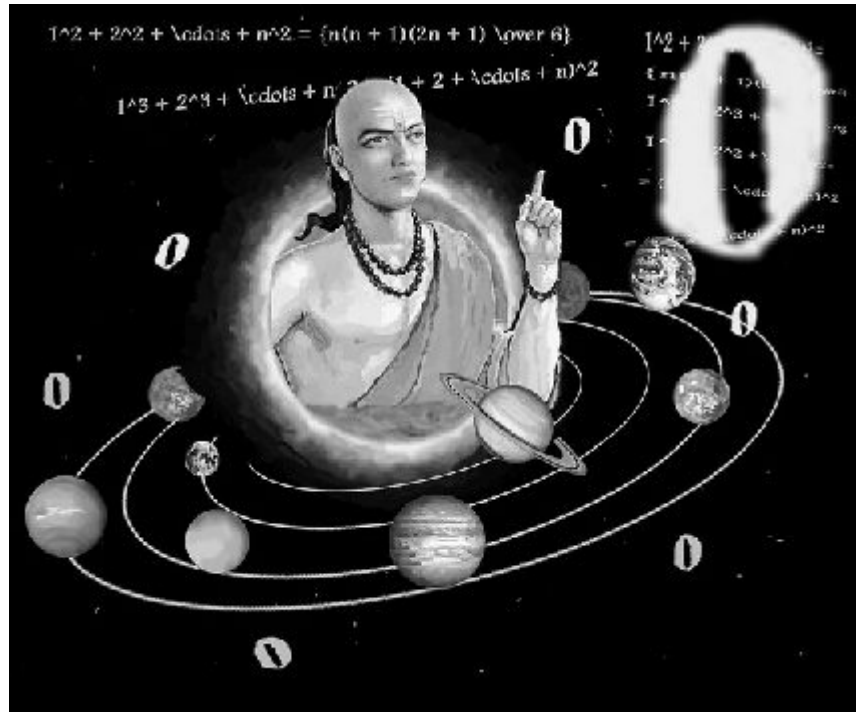

He also wrote an essay on astronomy. For example, he was aware that the earth spins on its axis and that it moves round the sun and the moon rotates round the earth. He discussed about the locations of the

planets in relation to its movement around the sun. Aryabhatta refers to the light of the planets and the moon as reflections from the sun. He goes as far as to explain the eclipse of the moon and the sun, day and night, the contours of the earth, the light of the year exactly as 365 days.

He also calculated the circumference of the earth as 24,835 miles, which is close to the present-day calculation of 24,900 miles. This extraordinary man was an intellect of immense proportions and continues to baffle many mathematicians of today. His work was later adopted by the

Greeks and then the Arabs. If one is to study the history of mathematics, Aryabhatta of Bihar outshines everyone.

Swachh Bharat Abhiyan

(Clean India Mission)

एक कदम स्वच्छता की ओर

It is a national level campaign by the government of India, covering 4041 statutory towns to clean the streets, roads and infrastructure of the country.

This campaign was officially launched on 2 October 2014 at Rajghat, New Delhi, where Prime Minister Narendra Modi himself cleaned the road. The campaign is India's biggest ever cleanliness drive and 3 million government employees and school and college students of India participated in this event.

The mission was started by Narendra Modi the Prime Minister of India, nominating 9 famous personalities for this campaign, and they take up the challenge and nominate 9 more people and so on. It has been carried forward since then with famous people from all walks of life joining it.

Thought

- Its not the years in your life that count it's the life in your years that make the difference.
- Kind words can be short to speak but their echoes are endless.
- You will never find times for anything if you want time you must make it.
- What lies behind us and what lies before us are tiny matters. Compared to what lies with in us.
- As long as you are faced in the right direction the size of your steps don't matter.
- The true measure of a man is how he treats someone who can do him absolutely no good.
- Waiting to win is not as important as the challenges to prepare to win.
- If the doors of perception were cleaned everything would appear as it is infinite.
- The best place to find a helping hand is at the end of your own arm.
- We are like tea bags., we don't know our own strength will we were in hot water.
- The first step to lead a happy life is to learn to forgive yourself .
- It is not what happens to us that's important, its what we do about it that makes all the difference.
- Everything that we want in life is just out of our comfort zone we must step out of it.

Class IX

Nature

Nature in the broadest sense is equivalent to the natural, physical, or material world or universe “Nature” refer to the phenomena of the physical world, and also to the life in general. It ranges in scale from the sub automatic to the cosmic. The Study of nature is a science.

The word nature is derived from the Latin word Natura or essential qualities, innate disposition” and in ancient times, literally meant “birth”

Nature was a Latin translation of the Greek word physic which originally related to the intrinsic characteristics that plants animals and other features of the world develop of their own allured the concept of nature as a whole, the physical universe is one of the several expansions of the original nation it began with pertain core applications of the word by pre-Socratic philosophers and has steadily gained currency over since

This usage continued during the advent of modern scientific method in the last several centuries

With in the various uses of the word today nature often refers to geology and wildlife nature may refer to the general realm of various types of living plans and animals and in some cases to the processes associated with inanimate objects the way that particular types of things exist and change of their own accord such as the weather and geology of the earth, and the meter of energy of which all these things are composed it is often take to mean the Natural environment Or wilderness wild animals, rocks forest beaches and the general those things that have not been substantially altered by human intervention for example manufactured objects and human interaction generally are not considered part of nature, unless qualified as for example Human nature' or the whole of nature” This more traditional concepts of natural things which can still be found today implies a distinction between the natural and the artificial with the artificial being understood as that which has been brought into being by a human consciousness or a human mind Depending on the particular context the term Natural might also be distinguished form the un natural or the super natural.

A Daughter's Love

Her hair was up in a ponytail
Her favourite dress tied with a bow
today was daddy's day at school
and she was ready to go.

But her mum tried to tell her
that she should stay at home
the kids might not understand
if she went to the school alone.

But she was not afraid
she knew just what it say
what to tell her classmates
of why he was not there today.

The little girl went to school
eager to tell them all
about a dad she never sees
a dad who never calls.

One by one the teacher called
a student from the class
to introduce their daddy
a seconds slowly passed.

At last the teacher called her name
every child turned to stare
everyone was searching
for a man who was not there.

Where's her daddy?
she heard a boy call out
May be she does not have one
another one dared to shout.

And from somewhere at the back
she heard a daddy say
"looks like another daddy screwed up"
Too busy to waste his day.

With her hands behind her back
slowly she began to speak
and out of her mouth
came words incredibly unique.

My daddy couldn't be here
as he lives very far away
but I know he wishes he could be
since this is a very special day.
We used to share chocolate sundaes
and ice cream in a cone
and though you can't see him
i am not standing here alone.

Cause my daddy's always with me
even though we are two worlds apart
And once he told me that
he will forever be in my heart

With that her little hands reached up
and lay across her chest
feeling her own heartbeat
under her favorite dress.

And from some where in the crowd of dads
her mother stood in tears
proudly watching her daughter
who was wise beyond her years

And when she dropped her hands back down
staring straight into the crowd
She finished with a soft voice
but its message clear and loud.
I love my daddy very much
he's my shining star
and if he would be here
because heaven's just too far.

He was a fireman
and died just last year
when airplanes hit the towers
and made the meaning of freedom very clear.
But sometimes when i close my eyes
it's like he never went away
and then she closed her eyes
and saw him there that day.

And to her mothers amazement
she witnessed with surprise
a room full of daddy and children
all starting to close their eyes.

I know you're with me daddy
she called out
and what happened then made believers
of those once filled with doubt

No one in the room could explains it
because their eyes were closed
but on the desk beside her
was a fragrant pink rose.

And the child was blessed
if only a moment
by the love of her shining star.

And given the gift of believing
that Heaven is never too far.

Doon Cambridge School

Excellence is not a skill it is an attitude We are what we repeatedly do. Excellence then is not an act but a habit

We at Doon Cambridge, aim at developing the “habit of excellence”

We help children unfold the potential of their minds

We provide a conducive environment to develop positive thinking to mature into a harmonious individual

We shape the millennium by providing the best academic and curriculum facilities.

We provide the best sports facility because we believe that healthy mind resides in healthy body

We aim to build the son and daughters of tomorrow so that they don't leave their old parents in ruins but support them at every step.

Yes the true objective of Doon Cambridge is to develop an Aware Youth

We aim at familiarizing our students with our rich and spiritual heritage, universal perception, ethical consideration and characters building.

We aim to build a sensitive youth who is touched to see underprivileged and empathises with needy

We aim to make them true human beings who are capable to face life's challenging head on.

My School

I go to school everyday
where I learn day-by-day
I stand in line and I pray
I listen to what my teachers day
Teachers help me in every way
I first study and then I play
When the school gets over
I come home happy and joy.

Kirty Chaddha
Class -VI

Don't Give Up

(adopted from a song by Suman Chatterjee)

Don't give up friend, rather hold on right to our dears

Dream to change the world
You have given up many a things old habits traits and culture
Even sweet delicacies cause of diabetes
You have given up that smile reflected from a mile
You have forgotten that laughter
That reminded you are a fighter

You have forgotten dreaming
A few years ago
But i sill love to dream
Don't you give up the dream
Times and tided propel me too
the youthful zeal lessens too

but between the bouts of trouble
is till love to live
And dream to change the world at least around me
The age of contradiction still inert
Hence must our dream exist
Dream to choose hold on to it tight

Don't give up the dreams nor the fight
Dream to change the worlds
Is till dream don't give up friend
Change it not too far away
Its time not to get curried away
But to hold on to dream friends

The Fear of Twelfth

As soon as we clear Eleventh and reach the Twelfth class our heart beats fast. It isn't last.

We are roused with fears in our mind and makes gestures as we've committed crimes. We are made to cram all the subjects physics chemistry and other aspects. Our parents suspect and teachers inspect, even we too regret.

For having reached the twelfth class we have to study so hard that for the games we lose all the regard. No time for TV and no time for movies. Thus we are losing our precious rubies I want to ask one thing if we have reached Twelfth what is so surprising?

Same are the students and same are the books. What has changed is just your outlook. We want to make them clear that twelfth is not a nightmare and if we get their support in Twelfth, we'll be getting the highest score.

Math Riddles

1. Prime number riddle

Q. Can you find four consecutive prime numbers that add up to 220?

2. Tricky Math Riddle

Q. Take 9 from 6, 10 from 9, 50 from 40 and leave 6.

3. Tricky Math Riddle

Q. What do you get if you add 3 to 300 five times?

4. Funny Maths Riddle

Q. if you had a pizza with crust thickness 'a' and radius 'z', what is the volume of the pizza?

5. Common exam problem riddle

Q. $5+3+2=151022$

$$9+2+4=183652$$

$$8+6+3=482466$$

$$5+4+5=202541$$

Then

$$7+2+5=?$$

Solutions (Math Riddles)

1. $47+53+59+61=220$

2. $SIX-9(1x)=S$

$$9(IX)-10(x)=I$$

$$40(XL)-50(L)=x$$
$$=SIX$$

3. 303, 303, 303, 303, 303

4. $pi \times z \times z \times a$

$$(Pi \ r 2a)$$

5. $5+3+2=151022$

$$5 \times 3 = 15$$

$$5 \times 2 = 10$$

$$15 + 10 = 25 - 3 = 22$$

$7+2+5=$ 143547

MAA

How pure is this word one cannot search,
Your care is my roof and your love is my arch.
You gave me life, give it a meaning,
Can't hurt me ever, you are so loving.

World opposes but you are my support,
Pushes me further you know my report.
You can read my face I can't hide,
We have a bond, two of us are tied.

You loved me more than yourself always working and thinking for me,
Do you think about yourself your sacrifice I can't want.
I am your precious and you are my fount,
You are my shade to protect from sun.

Without you not any of my work is done,
You work hard with me to get through studies.
Always correcting my mistakes and improving me with an ease,
You are the light of my life you sharpen my character like a knife.

You have given me but received never,
You help is my power with that I can stand forever.
I can't see you spying but you never let me cry,
I become hopeless facing difficulties.

But you always say give it a try,
You hold my hand never let me fall,
without you Maa I am nothing at all.

The Valuable threes

Dic for these three- Nation, Friend & Truth.

Respect these three- Parents, Teacher & Books.

Have control over these three- Mind, Desire & Greed.

Have pity on these three- Independence, Justice & Conscience.

Capture these three- Tongue, Habit & Anger.

Never forget these three- Loan, Duty & obedience.

Always be ready for these three- suffering, misfortune & disease.

These three wait for nons- Time, Death & customer.

The Value of Friday

India got independence on Friday. Mr. Gandhi was born on Friday. Gandhi ji was shot dead on Friday. Abraham, Kennedy were shot dead on Friday. Sardar Vallabh bhai Patel died on Friday. World War 2nd started on Friday. Jesus Christ was crucified on Friday. New movies are also released on Friday.

Yes! you can do it.

- If you can plan your vacation, why not your life?
- If you can say good thought to other, why not apply it your self?
- If you like your goal, why not work for it?
- If you want to be healthy, why not set a time for exercise.
- If you are in problem, why not search some solution?
- If other can do this, why not you can do it?
- If you can think, why not you can achieve it?
- If others can set a record, why not you break it.

Life of A Girl

life of a girl as full of joy
Throughout life playing with not favorite toys,

Like a bird she wants to fly.
In the unattainable high sky

In the noon she wants to chit chat
To like up the energy so that the does not turn that

in the evening she plays with her friends
After playing she prepares tea

After serving which she becomes free after work its like to study
She has the time to become somebody

She then helps her mother in preparing food
And then serves it with jovial mood

At night being tired
She wants to lie
Hearing her mother's bullaky

Failures are the Pillars of Success

Success and failure are the two aspects of human life We should not feel disheartened if we fail in our efforts. Failures are said to be pillars of success because we at least gain experience by attempting the task, and even if we fail, we can try again * work harder for our aim working with determination is the foundation of success .

- Don't fear if you fail
- Try again with great zeal
- Be strong work hard
- Face problems attempt tasks
- So that you can turn
- Scars into stars

I Wonder Why?

I can not fly
one day I tried
but I could not fly
I wonder why
the leaves are green
and what does in means
there is everything green
I wonder why
the nights are dark
and why the dogs always bark?
because they are alter in dark
I wonder why
the milk is white
it books bright
it gives us energy to fight
I wonder why?
the rain the earth is ground
and why the earth is round
because it gives us joylessness sound

Life in Hostel

What a life is hostel life!
Full of joys and full of voices

You are always on your toe
You have all friends no toes.

There are boys and girls from east and west
At every step you have a test

You are expected to do your best
Of course! you get time to rest

There is none high, these is none low
All the times is it go , go, go.

PT prep, breakfast clans
You are is trouble if you break the glass

Class work homework, hobby games
There is confusion but all is game

The best day surely is Sunday
When you have truck and play whole day

Class XII

Teacher

Teacher is like a candle
Burning in the night
Making his students
Bright, bright and bright
God is my makes
But you are the guide
My mother is my mind maker
But you are my pride
You are my future
If you give me light
My future will be very bright

Friendship

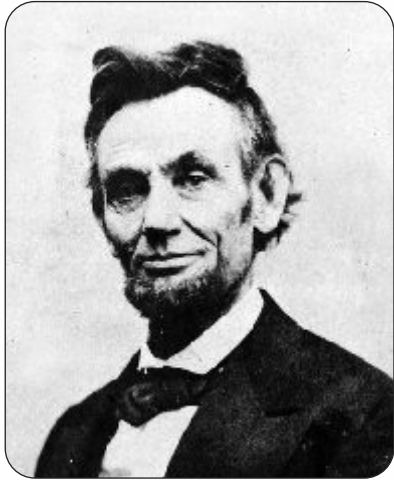

Life is dull without a friend
And is no fun without a challenge
A church is silent without a preacher
But a class is happy without a
teachers,
There are many ships big or small
Nut is there any thing like
A good friendship that stands tall
True friends are like pearls

Costly are rare
False friends are like autumn leaves
Easily found fallen every where
Friendship is that flower
Which blooms in sun or in shade
One who knows its value
Will never let it fade

Pollution

People are aware of the hole in the ozone layer. But still they don't care.

Some people smoke and make everyone choke.

Industries cause so much air pollution for what me ought to find a solution.

Vehicles pollute the clean air and not a through do people spare.

People should try to save fuel this should be made a rule.

Akhilesh Rarghav

On Every Twin of Life

When you believe in yourself...
your problems changes into solution...
world seems different
and you come out stronger.

When you spread happiness...
you feel the joy multiply...
you live more & your thoughts
feel the sky.

When you help others...
you feel contented,
others feel blessed,
to have a company that's decent.

And that is how on
every turn of life...
you have to keep calm
& always remember.

To smile & serve
Live life to the fullest

A Friend for Life

A friend for life
Is someone who
Gives all they can
And is true to you.

A friend for life
Is someone with
A brain for knowledge
And knows every myth

A friend for life
is someone who likes,
all the same things
like me and my yikes.

A friend for life,
Is some one who
Will always be there
For me and you
